

Shaping the Manufacturing Industry with Technology

Research Showcase presented by:

Australian
Cobotics
Centre

Centre for
Robotics

& the QUT School of Electrical Engineering and Robotics

We invite you to join us on 15th July at our Manufacturing Industry event held in person at the Advanced Robotics for Manufacturing (ARM) Hub in Northgate.

We will showcase the latest robotics research with examples of how the technology can be applied to manufacturing and also provide insight into the organisational change considerations that should be considered when implementing technology.

The day will be split into three sessions with lunch included and attendees are welcome to attend all or part of the day with refreshments and the opportunity to network with other organisations and researchers.

Agenda

- 9:00am** Registration opens
- 9:30am** *Session 1* – Introduction & ARM Hub presentations
- 10:40am** Break
- 11:00am** *Session 2* – QUT Centre for Robotics presentations
- 12:30pm** Lunch
- 1:00pm** *Session 3* – Australian Cobotics Centre presentations include demonstrations and presentations on change management and skills for advanced manufacturing.
- 3:00pm** Refreshments and networking
- 4:00pm** Finish

Spaces are strictly limited so please register now to secure your place.
